

Do I book everything myself after I receive my travel itinerary?

No, not only will I help plan your itinerary and give hotel and sightseeing recommendations, I will also make your hotel reservations, book airline, and activities for you.

Do you help book AirBnB or hotels I find on Booking.com?

I don't work with AirBnBs or online booking sites. I make reservations wither directly with hotels or via vetted reliable suppliers to guarantee the best quality and service for my clients.

What is the process to have you book a trip for me?

I ask that you email me detailed information about your trip, dates, destinations and preferred budget. After, I will send your first proposal with a preliminary itinerary and hotel suggestions. We will go back and forth and make necessary adjustments to your itinerary, and, after your approval, I will make all travel arrangements and bookings and will send your final documents.

What if I am not 100% happy with the itinerary or want to see other options?

The more information you provide about your preferences, expectations and budget, the better and more suitable options I can send you. If you are not happy with hotel suggestions or itinerary, I offer up to 5 revisions to the itinerary.
